Travel with us

Explore Sumba is the first tour operator in West Sumba. Sumba is a piece of paradise that is not yet spoiled by tourism... and we want to keep it that way!

This is one of many reasons why we run our tours in a very sustainable way. As well as working hand in hand with the communities, we also arrange tours where guests will engage with locals to witness their daily life. We also utilize their services to provide traditional bites and drinks so our guests can be introduced to part of their culture.

We help to empower the community and make use of their value into something that will be profitable for them in the long term. Our local guide have known the villagers, include the head of the village, for so many years, so the visit to the village will be like a visit to an old friend and family. Our guests will be welcomed and treated as a part of the family. We think this is very important because this way the villagers also learn to preserve and share their culture.

Being local, our guides and drivers are also nature lover themselves. They will advise best places and times for magnificent photos. You will get no other than first hand information from our team on how to get amazing experiences and pictures of Sumba, starting from the villages, beaches, waterfalls, rocks configuration, lakes, savannah, and many more.

Many tour starts by sunrise and end by sunset and there are some out of the beaten track routes that will not allow guests to have meals in a restaurant. For these routes, we will provide a picnic served in a reusable lunch boxes that will keep the food warm and keep Sumba clean from excess rubbish.

We also try our best to reduce plastic waste. All of our guest will get a stainless steel bottle water that can be refilled during their trip and bring home as souvenir for their unforgettable experience in this island.
